DECISION ON THE UPDATE OF YOUR REGISTRATION

Based on Articles 22(3) and 20(2) of Regulation (EC) No 1907/2006 ('REACH'),

The update of your registration for the substance with EC number **233-135-0** is complete. This registration entitles you to manufacture/import the substance, or produce or import an article containing it.¹

This registration update covers:

- the tonnage band **over 1000 tonnes/year**

Further observations

In accordance with Article 20(2) of REACH, the completeness check ascertains that all the elements required have been provided. However, this check does not include an assessment of the quality or adequacy of data provided. Such an assessment may occur later in a compliance check.

Also the verification of the eligibility for any claimed fee reductions (for example such resulting from the declared company size) is not part of the completeness check, but it may follow at any time in accordance with Article 13(3) of Fee Regulation (EC) No 340/2008.

In accordance with Article 22(1) of REACH, registrants are on their own initiative required to update their registrations without undue delay with relevant new information (for instance, change in status, substance composition or quantities).

Certain information from this registration dossier will be published without further notice at <https://echa.europa.eu/information-on-chemicals>.

Should you have any questions please contact ECHA via the contact form at <https://echa.europa.eu/contact>.

Note to registrants in the United Kingdom: The UK has notified its intention to leave the EU. As this decision on your registration only applies within the framework of the EU REACH legislation, your registration risks becoming non-existent once the UK withdrawal from the EU takes effect. ECHA advises you to regularly consult its webpages on the UK's withdrawal at <https://echa.europa.eu/uk-withdrawal-from-the-eu>. There you will find updated information on the validity of registrations by UK registrants, and on any action that you may need to take to maintain access to the EU market.
